

# FRIEND,

In November 2022, I was diagnosed with stage four Hodgkin Lymphoma. **I was just 25 years old.** I joined a club no one wants to be a part of and discovered the unseen and unique consequences of being a young adult cancer survivor. While I had incredible support as I healed, I found many folks in my shoes who did not. I was introduced to a group of people who were hurting deeply and desperate for help – and **love**.

So, equipped with first-hand experience and some divine intervention, my team and I formed the **118 Foundation and began investing in young adults' comeback from cancer.**

**Since launching in January of 2024, we have supported young adults overcoming cancer to the tune of \$61,050 – and we aren't slowing down.**

Last year, we hosted the inaugural Comeback Celebration and raised enough money to cover every grant we awarded in 2025 and then some. We plan to far exceed this success at our next Comeback Celebration, and we need your help to do so.

**I would like to extend an invitation for you and your team to partner with the 118 Foundation to host the second annual Comeback Celebration.** With your partnership, we can continue to help make the comeback from cancer possible for young adults across the nation.

Please let me or my team know what additional information you need to consider this request. We would be honored to have your investment.
